RE: ACT/037/012
Carbon County, Utah

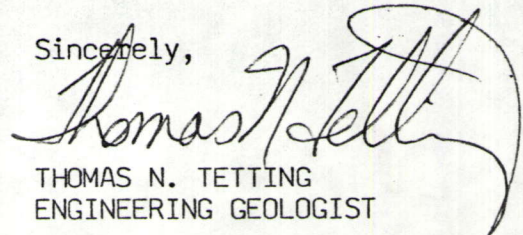

Dear Mr. Dye:

Let me take the time to write you a personal letter of thanks for your tour of the Pandora Project, Thursday, April 23. Your patience and cooperation will continue to inspire confidence within the Division.

I would, however, like to make a couple of suggestions: I think we both see the advantage of keeping up-to-date accounts over usage of access roads. The fact that many still exist on your Pandora Project which will not serve future use is merely a reminder that the project is incomplete. Efforts should be made to coordinate reclamation with Union Carbide to eliminate wasted time on duplication. I would also urge you to continue contracting with whomever is responsible for redistributing slash and tree trunks across disused sites. Finally, I would like you to finish reclamation by removing remaining refuse, trash, i.e., man-made items such as cans, boxes, bottles, wooden platforms, etc., from the area.

Thanks again for your continued efforts in pioneering the new age of conscientious reclamation. When in the area, a member of the Division will again call on you.

Sincerely,

THOMAS N. TETTING
ENGINEERING GEOLOGIST
